Exclusive placement

The tip of the month is featured in the 4x4 part of www.campervans.de directly beneath the editorial opener. This preferred placement grants your advertised product/event special attention. There is only one tip available each month. The show time is four weeks.

You only need a few documents for this

Send us your photo, short text (max. 250 characters incl. empty spaces), a catchy headline (max. 65 characters incl. empty spaces) and the desired URL to which your tip should be linked. We will design your tip of the month and send you a preview link for approval.

WEBSITE – ADVERTORIAL

4x4 Camper

The online advertorial on www.campervans.de/4x4-camper is similar to an article written by an editor. Readers therefore tend to perceive the content to be information. Catchy headlines and fascinating images can gain high figures of attention.

Detailed presentation

The online advertorial is a winner when it comes to different creative opportunities. There is almost no product you cannot present in an exciting way and you can also explain any content that is not easily understandable. Present new series of models or a comprehensive portfolio in image galleries, explain technical content in a video, offer further information for download...

Ongoing presence

Online advertorials continue to remain available on our website, are indexed by search engines and integrated into the menu navigation where that makes sense for a particular topic. This type of advertising is NOT filtered out by ad blockers.

Additional reach

For every online advertorial, we also publish a teaser on **Facebook** and in the **newsletter**. Right at the start of the campaign, a **teaser is also placed on the home page of the website** for one week. These actions increase the traffic for your online advertorial and are already included in the fee. In addition, you can use our different newsletters to book further reach at a very reasonable combined fee.

NEWSLETTER ADVERTORIALS

New products are best presented with a newsletter advertorial. In spite of the required mark as “advertising”, its editorial look and feel make it very hard to distinguish at a single glance from information content by the editors, and it receives the same number of clicks. Is important that headline and text immediately provoke an interest. You provide the text and the photograph, we take of the layout.

TECHNICAL INFORMATION PRINT

PRINT

Colour advertisements: European Scale DIN 16539. If the primary colour black is not used in the colour advertisements, this does not affect the cost calculation. Special colours or shades which cannot be created out of the basic colour range will be separately calculated (details given on request). Slight variations in shade may occur within normal tolerances of the printing process. Discounts are given on additional colours.

Advertisement types: Differences are made between print space ads and trimmed ads (or also bleed advertisements and trimmed). Print space ads do not come in contact with the edges of the page, but are placed in varying size within the print space. Trimmed ads on the other hand touch one or more edges of a page and therefore need 5 mm on all sides for trimming. This is technically defined due to the fact that the magazine is trimmed to its final size after the printing process is complete.

Print space ads: For all advertisement sizes please see the table to the respective format specification. When designing your advertisement you may use your preferred size to its full extent. Don't add bleed space.

Trimmed ads: An additional 5 mm should be added to each side of a trimmed ad, whether it touches an edge or the binding. This is to compensate for the trimming process. Important contents should be kept 10 mm away from the trimming edge. If you wish to use the same advertisement in several different magazines (they generally have slight variations in sizes), then the smallest advertisement size for the magazine in question is applicable to the size of your ad.

Bleed ads: Ads that run through double pages must have a special layout. The visual restriction arises due to the bend in the magazine at the binding: a section of the motif is absorbed into the binding. This must be taken into consideration when designing and choosing the layout of your advertisement.

It is very important to remember that there has to be a 3 mm repetition of the motif (motif overlap) per page, i. e. if there is the possibility that a picture runs through the binding, it has to be placed 3 mm away from the binding, while at the same time leaving no white edge along the inside edge. In addition to this, the usual 5 mm trimming edge must also remain the same.

Text that runs through the binding must also be separated by 3 mm along the inside edge. Both sides of a double page advertisement must be sent as single pages. Please remember that all other relevant ad components must be placed 10 mm away from binding and the edges.

You will appreciate that the publisher cannot and may not correct sent data without authority. If you wish to use the same advertisement in several different magazines (they generally have slight variations in sizes), then the smallest advertisement size for the magazine in question is applicable to the size of your ad.
